- Enreal Engine
- Javascript

## LANGUAGES

English : B2

Spanish : B1

French : Native

## ÉDUCATION

**Bachelor Of Technology (BUT) in Multimedia and Internet**

*Graduating in 2029*

As a student at the University of Versailles Saint-Quentin-en-Yvelines (UVSQ), I study mathematics, web development (HTML/CSS, JavaScript, PHP), and graphic design, while mastering software such as Photoshop, Illustrator, and Premiere. The MMI (Multimedia and Internet Professions) degree offers a multidisciplinary approach, combining technical, creative, and communication skills.

**One year in Integrated-preparatory track within EPTA's engineering school**

*2025-2026*

I studied for one year at EPITA's engineering school, where I learned many programming languages like C, Caml, and Bash, as well as code optimization. I also learned how to use tools like Git and Make. On the other hand, I learned how to work efficiently and how to organize long-term projects. I studied the "Maths expert" program too.

**GENERAL BACCALAUREAT**

*2021-2025*

With Maths, Computer science and physics majors, I learned Python, SQL and some useful softwares like Godot ot Unity.

## PROFESSIONAL EXPERIENCE

**Summer camp counselor**

Telligo

*July 2026*

I worked for 10 days as a summer camp counselor at Telligo. My responsibilities included ensuring children's safety, organizing activities, and managing daily life at the camp.
